From Semiconductors To Powered Shell; What's Baked In?

Summary

Building on our recent analysis on data center rack power including CPU/GPU/ASIC (see [here](#) and [here](#)), we conducted extensive work connecting semiconductor revenue growth expectations to planned data center capacity and power availability globally. Using semiconductor-implied Gigawatt (GW) shipments and working backwards, our work suggests there is theoretically line of sight to enough powered shell capacity adds through C2030, but this will require the vast majority of both the ~110GW off-grid (behind the meter) and ~150GW of early-stage (i.e. still needing regulatory approval) on-grid power plants to be completed and connected to the grid (see [Figure 8](#) – [Figure 11](#)). Even in C2027/C2028, we draw a similar conclusion - e.g. that our accelerator estimates can be supported, but for C2027 the market needs another ~20GW of early stage power plants to convert to fully powered shell and for C2028, the delta is ~25-30GW. We think the early-stage pipeline is ~50GW for each of C2027 and C2028, so this would imply a conversion rate of ~40-50% to meet what is currently baked into semis numbers - not impossible but also high enough to require an accommodative legislation environment and limited supply chain delays. Looking at C2027, ~85% of this power "shortfall" is already in the interconnection queue, although most of these projects have yet to begin construction and have lead times that are generally >12mos. That said, upside to "behind the meter" solutions could provide a relief valve, creating enough "shots on goal" for available power to meet our accelerator shipment expectations through C2028. Said a different way, any shortfall could theoretically be covered by the power equipment supply chain re-allocating shipments away from other end markets and toward data centers. As this all comes to the fore, we think it will put a bigger spotlight on financing efforts by both NVDA and AVGO to create corridors of capacity, though we note AVGO hopes that its core frontier model customers can ultimately become self-financing.

Converting semiconductor revenue to Gigawatts (GW)

In aggregating our accelerator estimates across GPUs and ASICs, we estimate that ~340GW of compute capacity is expected to be added between C2026-2030 (~50GW in C2027, ~70GW in C2028), or ~380GW of shell capacity across the period when adjusting for a PUE of 1.12 ([Figure 1](#) - [Figure 4](#)). Underpinning our assumptions are a series of increasing power requirements embedded in GPU/ASIC roadmaps as AI racks maximize compute density to increase performance at low latency for both training and inference ([Figure 24](#) - [Figure 25](#)). Overall, we expect ASICs to increase share of GW deployments - going from ~35% in C2026 to ~45% in C2030. However, revenue/GW is higher for GPUs (broader workload applicability, better system-level content) so we see ASICs only capturing ~30% of the TAM on revenue basis.

Power availability can support our estimates, but we can't afford an infrastructure slowdown

We believe data center construction and power availability can support the GW capacity additions implied by our compute estimates (which are slightly above Street numbers) but this will depend heavily on early-stage power projects coming to fruition through C2030. From a data center construction perspective, UBS estimates there is ~275GW of global capacity currently in the pipeline (including China) but large amounts of planned data center capacity are being added so this number could move considerably higher so that power becomes the real bottleneck. In assessing power availability, we see line of sight (in various stages of permitting) to ~415GW of new power capacity available for data centers across the period, with ~305GW on-grid and ~110GW from behind-the-

meter sources. Excluded from our analysis is an incremental ~30-40GW of on-grid data center capacity in China, so this would just add more of a "relief valve" to reach the 380GW to the extent the US accelerator companies are allowed to ship into China. So we conclude that there is line of sight to enough power supply to support ~380GW implied by our compute estimates, but it will require ~150GW of early-stage on-grid projects to convert into completed power plants over the coming years together with an additional ~110GW of behind-the-meter solutions. In aggregate, this would provide enough "buffer" to make us feel comfortable that expectations on the semi side still have upside.

EXECUTIVE SUMMARY

Amid a strengthening accelerator market defined largely by NVDA, AMD, AVGO, and MRVL, we estimate the gigawatt capacity implied by our compute estimates. Combining our estimates with expectations on incremental power supply over the next 5 years, we believe there could be adequate data center buildouts - and energy availability - to meet our compute estimates through C2030.

Power requirements are rising at every level of the system, especially as the number of dies per package increases alongside increasing accelerator rack density. Based on our rack and TDP assumptions, we estimate ~340GW of cumulative incremental compute capacity deployed between C2026-2030, or ~380GW of actual DC shell capacity when factoring in a power usage effectiveness (PUE) of 1.12.

Source: UBS estimates.

Our rack estimates imply ~380GW of DC capacity to be required between C2026-2030. As such, we analyze both global data center construction and power availability to ensure there are sufficient buildouts to support our estimates. In terms of data center shell construction, UBS Evidence Lab currently projects only ~276GW under construction or planned globally. That said, the data center pipeline continues to revise higher (especially more recently as we noticed ~75GW increase between 1Q26-2Q26 alone), with the potential for further upside from projects that are not yet announced. From here, there needs to be enough power from both on-grid and behind-the-meter (BTM) sources to ensure the large data center pipeline gets built out.

Figure 5: Global Data Center Capacity Currently Under Construction or Planned

Source: UBS Evidence Lab ([Access Dataset](#))

Figure 6: Current Visibility On Data Center Shell Capacity

Source: UBS estimates

From a power availability perspective, we estimate ~307GW of data center power to be supplied from the grid globally between C2026-2030. In particular, we forecast an incremental ~271GW of data center demand supported by the US grid, of which ~195GW comes from various upside scenarios including 1) higher plant completion rate, 2) inclusion of early-stage projects, and 3) fewer plant retirements. Beyond the US, we assume an incremental ~16GW from EU, and ~20GW from ROW. Excluded from our analysis is an incremental ~30-40GW of on-grid DC capacity in China, although the region could potentially act as a relief valve to the extent the US accelerator companies are allowed to ship into the country.

Figure 7: Incremental Data Center Capacity Supported by the Grid Globally Between 2026-2030

Source: UBS estimates

Outside of the grid capacity expansion, behind-the-meter (BTM) solutions provide an additional layer of power supply that circumvent any delays in connecting to the grid. In assessing BTM solutions, we highlight capacity at three main suppliers of on-site power generation equipment (Caterpillar, Cummins, and Innio) and estimate that across the three vendors, they could add more than 108GW of power. We even see upside to BTM solutions if equipment providers allocate greater equipment mix towards DC - especially as capacity across various end markets is fungible. Net, we estimate total DC power availability of ~415GW (~307GW from the grid + ~108GW from behind-the-meter) between C2026-2030, slightly above the ~380GW required by our compute estimates.

Figure 8: Incremental Data Center Power Supply Between 2026-2030

Source: UBS estimates

Figure 9: Compute Expectations vs DC and Power Availability (2026-2030 Cumulatively)

Source: UBS estimates. *Note: our compute estimates imply ~380GW of data center capacity when utilizing a PUE of 1.12.

Completion of early-stage on-grid projects and greater off-grid resources mitigate risk in 2027/2028

While our estimates can be supported when using C2030 as the base, we are often asked if there are risks to near-term data center buildouts. That said, we approach the same analysis in assessing data center shell capacity implied by our compute estimates and power supply in C2027/C2028.

In C2027, we anticipate incremental ~57GW of data center capacity based on our compute estimates, but only have line of sight to ~38GW of powered shell when excluding early-stage power plant projects. In C2028, the gap would widen even further as we expect capacity additions of ~76GW vs powered shell visibility of ~50GW.

However, it is possible to bridge the gap in both C2027/C2028 as there is ~50GW of early-stage grid projects in the pipeline in both C2027 and C2028, implying 40-50% of such projects would need to be successfully converted into connected grid supply - not impossible but also high enough to require an accommodative legislation environment and limited supply chain delays. That said, upside to behind-the-meter solutions may provide a relief valve in the interim - especially as equipment capacity is largely fungible between various end markets - creating enough "shots on goal" in available power to meet our compute estimates in the near term.

ASSESSING GIGAWATT CAPACITY FROM SEMIS PERSPECTIVE

In assessing future GW capacity additions from a semis supply chain perspective, it is important to first look at CoWoS as this has been a leading indicator in terms of AI demand over the next 2-3 years. In our supply chain checks (see [here](#)), capacity expansion over the next 12-18 months is progressing faster than anticipated, led by an acceleration at TSMC coupled with diversified supply from ASE and Amkor. In particular, we expect TSMC capacity to reach 130k/180k wpm by CY26/CY27-end, with an acceleration driven by a larger advanced packaging TAM. Beyond TSMC, ASE is aggressively accelerating capacity expansion for CY27 - increasing from 20k wpm by CY26-end to 70k wpm by CY27-end. Overall, we estimate industry CoWoS to increase from 160k wpm at CY26-end to 270k wpm by CY27-end.

That said, we assume NVDA has supply for ~14.3MM chips in CY27, followed by AMD having supply for ~7.0MM chips. Regarding the ASIC supply chain, we estimate supply for ~9.0MM TPU chips, ~3.2MM Trainium chips, ~650k OAI chips, ~445k MTIA chips, and ~400k Maia chips in CY27.

Figure 12: Industry CoWoS Capacity (k wpm)

Source: Company data, UBS estimates

Figure 13: CoWoS Demand From Major Customers (k wpm)

Source: Company data, UBS estimates

Based on CoWoS allocation (and UBSe HBM estimates), we forecast ~14.3MM NVDA units in CY27 and ~18.3MM in CY28. Within this, we assume Rubin platform mix of 81% in CY27, while CY28 mix steps down to 42% as Rubin Ultra (and eventually Feynman) continue to ramp. Net, we expect CY28 platform mix of 42% Rubin, 37% Rubin Ultra, and 20% Feynman. Into CY29, we assume a conservative ~17.0MM units (down 7% Y/Y) before recovering in CY30 as hyperscaler capex growth may moderate, although this is largely dependent on monetization efforts, grid capacity available, power equipment, and construction lead times.

The mix between architectures is important as it determines total number of NVDA racks shipped, a critical stepping stone in determining GW capacity added. Based on our GPU unit mix assumptions, we estimate ~168k racks in CY27 (95k NVL72+ racks, 62k HGX, 7k CPU, 4k LPU) and ~165k racks in CY28 (82k NVL72+ racks, 65k HGX, 4k CPU, 14k LPU). Into 2028 and beyond, we estimate the number of NVL72+ racks to decline as accelerators per rack increases (i.e rack density) in Feynman to maximize training/inference bandwidth and efficiency.

Regarding AMD, we estimate ~1.3MM GPU units in CY27 stepping up to ~1.8MM in CY28 as the company executes on the ramp of MI400 (and eventually MI500). As MI300 racks contain 64 GPUs, MI400 Helios racks contain 72 GPUs, and MI500 MegaPods contain 256 GPUs, we assume CY27/CY28 AMD racks of ~14k/~11k, respectively. Similar to NVDA, we assume a stepdown in AMD racks from the CY27 peak as the accelerator density per rack increases.

While merchant GPU racks are concentrated between NVDA and AMD, there are various ASIC roadmaps in development - with hyperscalers such as Google (TPU) and Amazon (Trainium) at greater scale followed by a longer tail of vendors that are earlier in the roadmap (most notably OAI, META, and Microsoft).

More recently, OAI introduced its ASIC (Jalapeño), expected to have advantages in latency, interactivity, and performance-per-watt versus leading GPUs for LLM inference workloads. Jalapeño runs at ~700W versus ~1.2kW for GB200, while leveraging techniques such as multi-token prediction and a memory-sliced architecture optimized around KV-cache locality. On a system level, OAI plans for 128-chip racks, scaling 16 racks into 2,048-chip pods using Ethernet scale-up.

In aggregate, we anticipate ~15.6MM/~13.2MM ASIC units in CY27/CY28, implying total racks of ~246k in CY27 before stepping down to ~220k in CY28 (a similar trend as the GPU providers). While overall ASIC units decline 16% Y/Y and racks 11% in CY28, ASIC dies increase 57% Y/Y - driven by a step-function in dies per XPU for TPU v9 (from 1-2 in TPU v8i/v8t to 4 dies) and in Trainium 4 (from 2 die per Trainium 3 XPU to 4 dies).

TDP per rack increasing across accelerator architectures as compute density rises

Despite the number of racks deployed declining in CY28 and beyond, the number of GW deployed is expected to increase - driven by rising power per accelerator package and increasing accelerators per rack. This is visible across the major GPU and ASIC accelerator roadmaps maximizing compute density to increase performance at low latency for training and inference. While accelerator power requirements trend higher, various components within the rack are also increasing in quantity, including host CPUs, memory, scale-up switches, NICs, DPUs, management and storage controllers, liquid cooling pumps, and additional conversion loss and energy buffering - creating additional

power requirements to the overall rack system.

At NVDA, power per GPU, GPUs per package, and GPUs per rack are all increasing. In particular, Blackwell and Blackwell Ultra draws ~120kW/~140kW thermal design power (TDP), respectively, as the GPU package hosts 2 reticle dies at 650/700W in addition to the host CPU, system memory, network adapters, NVLink switch, power conversion loss, and auxiliary components. TDP for Rubin steps up even further to 227kW in the Max-P version, with each die increasing power consumption to 1,150W. Similarly, Rubin Ultra is now expected to use the same Oberon rack with 144 dies (72 GPUs) vs the initially planned NVL-576 configuration, implying TDP stepping up slightly to 250kW. Only in Feynman do we anticipate a material step-up in TDP to 1.2MW as the number of dies per accelerator increases to a 4-die solution (from 2 dies) while the number of GPUs within the rack increases to 144 GPUs (from 72).

Regarding AMD, Helios racks increase the number of GPUs per package to 72 (from 32 in MI300 HGX racks), with dies per rack increase from 256 to 576 (we note AMD's dies per rack to be materially larger than NVDA given its 8-chiplet per GPU architecture). For MI500, a megapod architecture connecting 256 GPUs (2,048 dies per rack) results in TDP scaling from 235kW in Helios racks to 1MW per MI500 Mega Pod.

Figure 24: NVDA and AMD TDP Per Rack (kW)

Source: UBS estimates

Custom ASICs are subject to a step-up in power requirements, with Amazon, Google, Meta, and Microsoft increasing die per package and power density per rack. At Amazon, compute dies per package increases from 1 to 2 between Trainium 1 and Trainium 2, although XPU per rack remain similar at 32. TDP for Trainium 3 racks in a 32 XPU configuration should step up from 27kW to 65kW as the power per XPU die doubles (from 250W to 500W), while the 72 XPU configuration (i.e Teton3 Max) pushes TDP even higher to 155kW. For Trainium 4, we expect the die per XPU package to increase from 2 to 4 dies while power per die steps up to 800W - resulting in TDP in Trainium 4 racks of 330kW.

On the other hand, Google is maintaining 64 TPUs per rack throughout its XPU roadmap - with the exception of v8i utilizing 32 TPUs in its rack configuration. However, power requirements for Google's roadmap should still increase as compute dies per TPU trends higher. In particular, TPUv7x transitions from 1 to 2 compute dies per package, while TPU v8 alternates between 2 dies in v8i (AVGO SKU) or 1 power compute die optimized for training in v8t (Mediatek SKU). Finally, TPU v9 is expected to increase performance with higher power dies and increasing dies per package, utilizing 4 dies per TPU at 2,400kW of power (vs 900kW/1,000kW in v8i/v8t). As a result, TDP in the TPU roadmap is expected to step up from 28kW in v5e to 200kW in v9 racks.

Figure 25: TDP Per Rack (kW) Across Various ASIC Roadmaps

Source: UBS estimates

We estimate an incremental ~380GW of data center capacity required by 2030

Based on expected rack deployments and increasing TDP per rack, we estimate GW capacity deployed increases from ~10GW in 2024 to ~105GW in 2030. Cumulatively, this implies ~340GW between 2026-2030, but at a PUE of 1.12 (based on new hyperscale build-outs that are more efficient), our accelerator estimates suggest ~380GW of actual data center facility capacity needing to be deployed between 2026-2030.

By accelerator provider, we assume NVDA compute capacity deployed increases at a 32% CAGR between 2026-2030 from ~17GW to ~51GW. For AMD, compute capacity deployed increases at a 90% CAGR from ~1GW in '26 to ~9GW in '30, growing at a faster rate than NVDA albeit off a much smaller base. Net, we believe merchant GPUs account for ~200GW of the incremental ~340GW of compute capacity deployed by 2030, or 59% of mix.

Among the major ASIC providers, Google leads the way in terms of assumed compute capacity deployed, followed closely by AWS. Beyond AWS/Google, OpenAI is expected to scale materially followed by Meta and a longer tail of other ASICs. For Google, we expect compute capacity deployed increases at a 49% CAGR from ~4GW in '26 to ~21GW in '30. Similarly, we expect AWS to increase at a 44% CAGR from ~4GW deployed in '26 to ~15GW in '30. Among the broader tail of ASIC projects, we find OAI's aspirations with Jalapeño to scale faster than the rest - increasing capacity deployed from almost zero GW in '26 to ~6GW in '30. We believe there is upside based on AVGO's recent commentary (see [here](#)) suggesting ~1.3GW deployed in its FY27 and >5GW in FY28. As such, ASICs should account for ~140GW of the incremental ~340GW of accelerator capacity we anticipate gets deployed by 2030, or 41% of mix.

While there is a meaningful shift in deployed AI infrastructure leaning towards ASICs - with the GW capacity mix evolving from 65% GPU/35% ASIC in 2026E to 57%/43% by 2030 - GPUs continue to generate substantially higher customer compute sales per GW given broader workload applicability, better system-level content, and software monetization. As a result, the revenue opportunity remains disproportionately skewed towards merchant GPUs, as our \$/GW estimates suggest ~70% data center revenue skewing towards merchant GPU vs 30% ASIC.

Figure 34: GPU vs ASIC GW Capacity Mix

Source: UBS estimates

Figure 35: GPU vs ASIC Revenue Mix

DC CONSTRUCTION ANALYSIS

Data center pipeline suggests ~276GW of shell capacity, with upside potential from unannounced projects

While supply chain estimates imply ~380GW of planned facility capacity between 2026-2030, UBS Evidence Lab currently projects only ~276GW under construction or planned. Although ~276GW of data center capacity can support ~70-75% of our accelerator estimates, a step-up in planned sites is required to support the remaining ~100-105GW.

That said, the data center pipeline continues to revise higher, creating greater confidence in bridging the gap between ~276GW of visibility and ~380GW implied by our estimates. In particular, data centers in construction and in the planning stage increased 75GW between 2Q26 and 1Q26 (or ~45% Q/Q). Of this, the states with the largest revisions include Pennsylvania (+24GW), Ohio (+10GW), and West Virginia (+7GW) followed by multiple states with revisions of +1-3GW. In all, 80% of the recent revision came from the US, with the country now accounting for 70% of global data centers that are either under construction or planned.

Figure 36: Global Data Center Capacity Under Construction or Planned

Source: UBS Evidence Lab ([Access Dataset](#))

Figure 38: Revision History of Global Data Center Pipeline

Source: UBS Evidence Lab ([Access Dataset](#))

Figure 39: Revision History of US Data Center Pipeline

Source: UBS Evidence Lab ([Access Dataset](#))

We believe there is further upside to data center construction in the near term to sufficiently meet our semiconductor estimates, as lead times are short enough for there to be many projects completed by 2029-2030 that have not been announced. In particular, it takes 15+ months for a greenfield data center to go live after procuring land and power, with major subsequent milestones including receiving permitting and approvals, design and engineering, land prep and shell construction, interior and MEP fit out, commissioning and testing, and finally IT installation. Upside risk to 15 months include delays in power procurement, local community pushback, and labor availability among other execution risks - making 18-24 months a more conservative estimate for greenfield data center construction.

Figure 40: It takes 15+ months for a data center to go live after procuring land and power

Source: Company data, UBS estimates

As such, there could be many projects announced over the next 1-2 years that are operational by 2029-2030, potentially bridging the gap between ~276GW of incremental global data center capacity currently visible and ~380GW implied by our rack deployment estimates. Said another way, ~100-105GW of unannounced data center shells is required to bridge the gap between what is currently visible and what is implied by accelerator estimates, but large amounts of planned data center capacity are being added so this number could move considerably higher. That said, we believe the more important factor to look at is if there is enough power to support ~380GW of data center facility capacity - both from on-grid and behind-the-meter solutions - as planned data center buildouts are dependent on if there is sufficient power.

Figure 41: Current Visibility On Data Center Shell Capacity

Source: UBS Evidence Lab ([Access Dataset](#)), UBS estimates

DC POWER ANALYSIS

Global power supply supports ~415GW of incremental data center capacity through on-grid and behind-the-meter solutions

In assessing adequate energy supply to support our compute estimates, we analyze 1) data center demand supported by the grid and 2) additional power sources beyond grid transmission (i.e behind-the-meter solutions).

Grid power supports ~307GW of incremental facility capacity, but is contingent on upside of ~195GW driven primarily by the US

In aggregate, we estimate ~307GW of incremental data center demand supported by the grid across various countries globally. Within the US, the UBS utilities team forecasts a base case for an incremental ~76GW of data center demand supported by the grid between 2026-2030. Of this, ERCOT (+22GW), PJM (+27GW), and MISO (+6GW) are leading the growth at 42%/40%/20% CAGRs, respectively. At the same time, the European UBS Utilities team forecasts an incremental ~16GW of data center demand (+2GW from the UK and +14GW from the rest of Europe). We note EU incremental capacity is ~5x lower than US, largely driven by lower mix of hyperscalers looking to develop facilities while power costs are much higher (both wholesale and meter priced).

While visibility is limited for other regions - with demand requiring substantial grid investment - we assume a conservative ~20GW based on the large tail of countries advancing data center infrastructure, including Korea, Malaysia, Thailand etc. Of note, we exclude ~30-40GW of incremental data center grid demand in China given government regulation limiting the export of US accelerators into the region. Overall, this accounts for ~112GW of incremental power availability, although there is upside of ~195GW primarily within the US.

Figure 42: US Data Center Grid Demand Under a Base Case (2026-2030)

Source: UBS estimates, ERCOT, PJM, Energy Information Administration, North America Electric Reliability Council

Figure 43: EU Data Center Grid Demand (2026-2030)

Source: UBS estimates

As previously mentioned, the UBS utilities team only forecasts a base case for an incremental ~76GW of grid support for data center demand between 2026-2030. However, the team suggest three sources of potential upside, including 1) 24GW upside from higher plant completion rate, 2) 151GW from inclusion of early-stage projects not yet permitted, and 3) fewer retirements than the 39GW UBS base case (we assume this represents 20GW of upside). Within the 151GW of early-stage projects, we believe ~50GW is planned for completion in both 2027/2028. While these upside cases total an additional 195GW of data center demand, the grid is already becoming constrained - especially as the reserve margin declines to 15% by 2030. Ergo, incremental power supply is needed to support our various upside cases.

In assessing supply additions, the UBS Americas Sustainability team outlined a base case of ~133GW of additional usable capacity from various power sources between 2026-2030, with ~26GW from battery/storage optimization, ~34GW from combined-cycle natural gas turbines, ~20GW utility-scale solar, ~25GW from simple-cycle gas turbine solutions, ~12GW from fuel cells, ~12GW from solar-plus-storage, and ~4GW from onshore wind. In a full absorption case - in which there is upside opportunities in solar-plus-storage and onshore wind - there is opportunity for ~156GW of additional usable GW of capacity. Net, supply additions of ~156GW from various alternative power sources can support our upside scenario of ~151GW early-stage projects.

Figure 47: 2026-2030 Additional Useable Power Capacity From Alternative Sources: Base Case

Source: UBS estimates

Figure 48: 2026-2030 Additional Useable Power Capacity From Alternative Sources: Full Absorption Case

Source: UBS estimates

Overall, we believe ~271GW from the US is entirely plausible when accounting for upside from early-stage projects that can be supported from various alternative sources of energy. Beyond the US, we anticipate 36GW of incremental data center capacity, resulting in ~307GW of global grid support between 2026-2030. However, this is still below the shell capacity implied by our compute estimates, suggesting behind-the-meter solutions are required.

Figure 49: Incremental Data Center Capacity Supported by the Grid Globally Between 2026-2030

Source: UBS estimates

Behind the meter solutions provide another ~108GW of incremental facility capacity

With the power grid unable to satisfy all incremental data center shell capacity, behind-the-meter (BTM) power solutions are required to meet our semi estimates. Traditionally, BTM generation was primarily considered a backup solution during emergencies or a temporary measure to support operations until conventional utility grid connections were established. However, hyperscalers and data center developers are utilizing BTM generation to satisfy prime power capabilities. In assessing incremental BTM capacity, we highlight three suppliers of on-site power generation equipment - Caterpillar, Cummins, and Innio.

Caterpillar: Caterpillar supplies power generators, backup engines, and industrial turbines targeting a variety of end markets including BTM prime power solutions for data centers. While the company has sized its large engine and turbine capacity at ~25GW in 2024, a large majority of capacity is allocated to various end markets beyond data center (i.e mining and oil and gas). Ergo, in assuming power generation is 50% of capacity mix and data center is 50-60% of mix within power generation (i.e data center is 1/3rd of total capacity), this would imply ~8GW of BTM data center equipment capacity in 2024. Assuming no growth in data center equipment capacity would still imply a cumulative installed base of ~40GW between 2026-2030.

That said, CAT is expanding its equipment capacity across its end markets, targeting ~65-70GW by 2030 (or 40-45GW of annual capacity being added). Net, we anticipate ~90GW of incremental data center shell capacity supported by BTM equipment from

CAT. Even so, there is further upside if a higher mix of incremental equipment capacity is allocated towards data center, as capacity is fungible between the various end markets.

Figure 50: CAT Total Equipment Capacity by 2030 (GW)

Source: Company reports, UBS estimates

Figure 51: CAT Data Center Equipment Capacity by 2030 (GW)

Source: Company reports, UBS estimates

Figure 52: CAT DC Equipment Capacity - Overview

	2024	2025	2026	2027	2028	2029	2030
Total Equipment Capacity (GW)	25.0	32.2	39.3	46.5	53.7	60.8	68.0
Data Center Mix	33%	33%	33%	33%	33%	33%	33%
DC Equipment Capacity (GW)	8.3	10.6	13.0	15.3	17.7	20.1	22.4

Source: Company reports, UBS estimates

Cummins: Cummins has laid out HPP engine capacity additions of ~20GW by 2030, albeit the vast majority is allocated towards diesel backup power rather than prime power. In particular, the 130-liter gas platform targeting prime power is expected to enter limited production in 2H28, followed by a commercial ramp in 2029-30. In our analysis, we limit the inclusion of backup power unless it can be transitioned into prime power capabilities.

Innio: Innio's product portfolio is well aligned to capture BTM data center demand given its prime power solutions. Most notably, 80% of current backlog in data center equipment is tied to prime power - with the remaining as backup power. We assume ~2GW of equipment capacity supporting BTM solutions, implying ~10GW of cumulative installed base between 2026-2030. Assuming Innio executes on increasing equipment capacity by 1GW per year, there is upside to ~18GW of cumulative installed base supporting BTM data center solutions.

As a result, we believe there is incremental ~108GW (~90GW from CAT + 18GW from Innio) of data center capacity supported from behind-the-meter solutions between 2026-2030, with upside dependent on increasing equipment capacity towards data center and greater mix of prime power applications.

All in, we estimate on-grid and behind-the-meter solutions can support ~415GW of incremental DC shell capacity

Based on our assumptions for on-grid and BTM solutions, we anticipate support for ~415GW of incremental DC shell capacity between 2026-2030. In particular, ~307GW of capacity can be supported by the grid, while ~108GW from BTM solutions largely from Caterpillar and Innio (with potential upside from Cummins).

Figure 53: Incremental Data Center Power Supply Between 2026-2030

Source: UBS estimates

POTENTIAL RISKS TO DC POWERED SHELL

Legislation and extended lead times pose risk to data center buildouts

While power supply of ~415GW is above the ~380GW shell capacity implied by our accelerator estimates, we believe legislation surrounding data center buildouts and supply chain bottlenecks are potential headwinds to consider.

Data Center Regulation: State-level pushback to data center development is becoming an increasing focus, with multiple states introducing moratoriums or stricter cost allocations. For example, New York has passed legislation establishing a 1-year moratorium on new data centers above 20MW while conducting environmental impact studies. Additionally, Texas is doing a comprehensive review of all data center projects seeking grid interconnection across the state - ensuring data centers pay for the electricity infrastructure (instead of passing it on to businesses), reuse water, and provide details on electricity demand. In states where there is no legislation at the state-level, data center moratoriums are being passed at the county level - creating another layer of complexity regarding connecting to the grid. Stricter guidelines may result in data center projects being canceled or delayed, potentially curtailing compute estimates across our coverage. Finally, incremental legislation may result in a greater reliance on behind-the-meter solutions.

Figure 54: Data Center Legislation Overview

States	Legislation Regarding DC Expansion
New York	- Passed legislation establishing a 1-yr moratorium on new large DC's (20MW+) while conducting environmental impact studies - Concerns: grid reliability, electricity costs, environmental impacts, & renewable energy requirements
Virginia	- Multiple proposals have sought to slow approvals for new DC's - One bill would delay final approvals until interconnection queues are addressed - Concerns: power demand, transmission buildout, land use, water consumption, and rising electricity costs for consume
Oregon	- Regulators approved rules requiring large DC's (20MW+) to cover grid infrastructure costs and enter long-term utility contracts - Rationale is that large loads should bear the cost of system upgrades rather than shifting costs to ratepayers
North Carolina	- Proposed legislation would require large DC's (40 MW+) to pay the full cost of energy and water infrastructure and provide on-site clean generation for part of their demand - Concerns: protecting utility customers from subsidizing DC growth

Source: UBS research

Supply Chain Bottlenecks: While the physical construction of a power plant is relatively short, connection to the grid remains a key bottleneck. In particular, the timeline from interconnection request to commercial operation continues to extend, rising to 4+ years today. Even so, lead times for critical components continue to lengthen, with large power transformers having lead times up to 210 weeks, backup power systems and switchgear extending to ~18 months, and beyond 3 years for on-site gas turbines. Finally, development timelines are impacted by the resource type, as utility-scale solar and onshore wind are disproportionately impacted by interconnection delays and local permitting conflicts, while natural gas generation faces stringent environmental permitting processes, coordination for pipeline access, and turbine shortages. All in, multiple phases of the supply chain face bottlenecks, resulting in potential mismatches between power supply and our implied compute estimates.

TYING THINGS BACK TO OUR NVDA MODEL

Our analysis suggests upside to NVDA estimates

Tying everything back to our model, our revised power-based framework points to incremental upside relative to Data Center revenue trajectory currently embedded in our model. In aggregating our GW assumptions and \$/GW content for NVDA, we derive implied NVDA revenue of ~\$408B in CY26E stepping up to \$1.1T in CY28E. While CY2026E remains broadly aligned with our existing assumptions, the gap widens in CY27/CY28, suggesting our model may not fully capture the scale of compute infrastructure that could ultimately be deployed. We believe this is largely due to the mix of HGX racks versus NVL72, which skews NVDA's revenue per GW.

Figure 55: NVDA Revenue Per GW Across Hardware Architectures

Figure 56: Implied NVDA DC Revenue From Our GW Assumptions vs Model

Viewed through this lens, as AI clusters scale, customers are also no longer purchasing standalone accelerators - they are purchasing fully integrated compute capacity. This shift should allow NVDA to capture a larger share of the infrastructure spend associated with every deployed GW while simultaneously increasing the amount of AI work that can be performed within a fixed power envelope. In our view, NVDA is increasingly positioned on the right side of that equation, as the company's roadmap appears designed not only to increase performance, but to continually raise the compute and revenue content associated with every incremental GW brought online.

****UBS Evidence Lab** is a sell-side team of experts that work across numerous specialized labs creating insight-ready datasets. The experts turn data into evidence by applying a combination of tools and techniques to harvest, cleanse, and connect billions of data items each month. Since 2014, UBS Research analysts have utilized the expertise of UBS Evidence Lab for insight-ready datasets on companies, sectors, and themes, resulting in the production of thousands of differentiated UBS Research reports. Valuation Method and Risk Statement

Tech investing involves risk. It is difficult for the investment community, UBS included, to project the financial results of tech companies, as their operating models are highly volatile and unpredictable, and they compete in a highly dynamic marketplace. In addition to their low predictability, valuing tech stocks can be challenging because neither traditional nor non-traditional valuation measures have provided much insight into how tech stocks trade.

Required Disclosures

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

2:Percentage of companies within the 12-month rating category for which investment banking (IB) services were provided within the past 12 months.

KEY DEFINITIONS:**Forecast Stock Return (FSR)** is defined as expected percentage price appreciation plus gross dividend yield over the next 12 months. In some cases, this yield may be based on accrued dividends. **Market Return Assumption (MRA)** is defined as the one-year local market interest rate plus 5% (a proxy for, and not a forecast of, the equity risk premium). **Under Review (UR)** Stocks may be flagged as UR by the analyst, indicating that the stock's price target and/or rating are subject to possible change in the near term, usually in response to an event that may affect the investment case or valuation. **Equity Price Targets** have an investment horizon of 12 months.

EXCEPTIONS AND SPECIAL CASES:**UK and European Investment Fund ratings and definitions are:** **Buy:** Positive on factors such as structure, management, performance record, discount; **Neutral:** Neutral on factors such as structure, management, performance record, discount; **Sell:** Negative on factors such as structure, management, performance record, discount. **Core Banding Exceptions (CBE):** Exceptions to the standard +/-6% bands may be granted by the Investment Review Consultation (IRC). Factors considered by the IRC include the stock's volatility and the credit spread of the respective company's debt. As a result, stocks deemed to be very high or low risk may be subject to higher or lower bands as they relate to the rating. When such exceptions apply, they will be identified in the Company Disclosures table in the relevant research piece.

Research analysts contributing to this report who are employed by any non-US affiliate of UBS Securities LLC are not registered/qualified as research analysts with FINRA. Such analysts may not be associated persons of UBS Securities LLC and therefore are not subject to the FINRA restrictions on communications with a subject company, public appearances, and trading securities held by a research analyst account. The name of each affiliate and analyst employed by that affiliate contributing to this report, if any, follows.

UBS AG, Singapore Branch: Nicolas Gaudois. **UBS Securities LLC:** Aaryan Wadhwa, Amit Mehrotra, Gregg Orrill, Natalia Winkler, CFA, Ryan Gravett, CFA, Shneur Z. Gershuni, CFA, Steven Fisher, CFA, Timothy Arcuri. **UBS Securities Pte. Ltd., Taipei Branch:** Randy Abrams, Sunny Lin.

Company Disclosures

Company Name	Reuters	12-month rating	Price	Price date
Advanced Micro Devices Inc. ^{16,28,7,20}	AMD.O	Buy (CBE)	US\$607.57	29 Sep 2026
Broadcom Inc. ^{16,28,8}	AVGO.O	Buy	US\$355.10	29 Sep 2026
Marvell Technology Group ^{16,28}	MRVL.O	Buy	US\$263.27	29 Sep 2026
NVIDIA Corp ^{16,28,8}	NVDA.O	Buy	US\$227.21	29 Sep 2026

Source: UBS Global Research; LSEG Eikon. All prices as of local market close. Ratings in this table are the most current published ratings prior to this report. They may be more recent than the stock pricing date.

7. Within the past 12 months, UBS has received compensation for products and services other than investment banking services from this company/entity.
8. The equity analyst covering this company, a member of his or her team, or one of their household members has a long common stock position in this company.
16. UBS Securities LLC makes a market in the securities and/or ADRs of this company.
20. Because this security exhibits higher-than-average volatility, the FSR has been set at 15% above the MRA for a Buy rating, and at -15% below the MRA for a Sell rating (compared with 6/-6% under the normal rating system).
28. UBS holds a long position of 0.5% or more of the listed shares of this company.

Unless otherwise indicated, please refer to the Valuation and Risk sections within the body of this report. For a complete set of disclosure statements associated with the companies discussed in this report, including information on valuation and risk, please contact UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research.

The Disclaimer relevant to Global Wealth Management clients follows the Global Research Disclaimer.

UBS Global Research Disclaimer

This document has been prepared by UBS Securities LLC, an affiliate of UBS AG. UBS AG, its subsidiaries, branches and affiliates, including former Credit Suisse AG and its subsidiaries, branches and affiliates are referred to herein as "UBS".

Any opinions expressed in this document may change without notice and are only current as of the date of publication. Different areas, groups, and personnel within UBS may produce and distribute separate research products independently of each other. For example, research publications from **UBS CIO** are produced by UBS Global Wealth Management. **UBS Global Research** is produced by UBS Investment Bank. Research methodologies and rating systems of each separate research organization may differ, for example, in terms of investment recommendations, investment horizon, model assumptions, and valuation methods. As a consequence, except for certain economic forecasts (for which UBS CIO and UBS Global Research may collaborate), investment recommendations, ratings, price targets, and valuations provided by each of the separate research organizations may be different, or inconsistent. You should refer to each relevant research product for the details as to their methodologies and rating system. Not all clients may have access to all products from every organization. Each research product is subject to the policies and procedures of the organization that produces it.

This document is provided solely to recipients who are expressly authorized by UBS to receive it. If you are not so authorized you must immediately destroy the document.

UBS Global Research is provided to our clients through UBS Neo, and in certain instances, UBS.com and any other system or distribution method specifically identified in one or more communications distributed through UBS Neo or UBS.com (each a system) as an approved means for distributing UBS Global Research. It may also be made available through third party vendors and distributed by UBS and/or third parties via e-mail or alternative electronic means.

All UBS Global Research is available on UBS Neo. Please contact your UBS sales representative if you wish to discuss your access to UBS Neo. Where UBS Global Research refers to "UBS Evidence Lab Inside" or has made use of data provided by UBS Evidence Lab and you would like to access that data please contact your UBS sales representative. UBS Evidence Lab data is available on UBS Neo. The level and types of services provided by UBS Global Research and UBS Evidence Lab to a client may vary depending upon various factors such as a client's individual preferences as to the frequency and manner of receiving communications, a client's risk profile and investment focus and perspective (e.g., market wide, sector specific, long-term, short-term, etc.), the size and scope of the overall client relationship with UBS Global Research and UBS Evidence Lab and legal and regulatory constraints. UBS HOLT and UBS Pharma Values are offerings of UBS Global Research. HOLT Lens is a corporate performance platform offering that provides an objective accounting-led framework for comparing and valuing companies and is available to clients of UBS Global Research; for further details and pricing please contact your UBS Sales representative. In particular, HOLT has a variety of warranted prices based on the scenario chosen; please mail UBS Securities LLC, 11 Madison Avenue, New York, NY 10010, USA, Attention: Investment Research, if you are interested in the warranted price on a particular company, again subject to commercial considerations. UBS Pharma Values is an analytical tool that involves the creation of a number of individual product net present value calculations, based on published forecasts of sales for pharmaceuticals, and is available to clients of UBS Global Research; for further details and pricing please contact your UBS Sales representative. For all other specific disclaimers, please see <https://www.ubs.com/disclosures>.

When you receive UBS Global Research through a system, your access and/or use of such UBS Global Research is subject to this UBS Global Research Disclaimer and to the UBS Neo Platform Use Agreement (the "Neo Terms") together with any other relevant terms of use governing the applicable System.

When you receive UBS Global Research via a third party vendor, e-mail or other electronic means, you agree that use shall be subject to this UBS Global Research Disclaimer, the Neo Terms and where applicable the UBS Investment Bank terms of business (<https://www.ubs.com/global/en/investment-bank/regulatory.html>) and to UBS's Terms of Use/Disclaimer (<https://www.ubs.com/global/en/legalinfo2/disclaimer.html>). In addition, you consent to UBS processing your personal data and using cookies in accordance with our Privacy Statement (<https://www.ubs.com/global/en/legalinfo2/privacy.html>) and cookie notice (<https://www.ubs.com/global/en/legal/privacy/users.html>).

If you receive UBS Global Research, whether through a System or by any other means, you agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research provided via UBS Global Research or otherwise, and that you shall not extract data from any research or estimates provided to you via UBS Global Research or otherwise, without the prior written consent of UBS. You agree not to use UBS Global Research in any artificial intelligence system, without the prior written consent of UBS.

In certain circumstances you may receive UBS Global Research otherwise than in the capacity of a client of UBS and you understand and agree that under these circumstances (i) the UBS Global Research is provided to you for information purposes only; (ii) for the purposes of receiving it you are not intended to be and will not be treated as a "client" of UBS for any legal or regulatory purpose; (iii) the UBS Global Research must not be relied on or acted upon for any purpose; and (iv) such content is subject to the relevant disclaimers that follow.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is a general communication and is educational in nature; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. The recipient should carefully read this document in its entirety and not draw inferences or conclusions from the rating alone. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, structured derivative products and futures (including OTC derivatives) are not suitable for all investors. Trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "The Characteristics and Risks of Standardized Options." You may read the document at <https://www.theocc.com/publications/risks/riskchap1.jsp> or ask your salesperson for a copy. Various theoretical explanations of the risks associated with these instruments have been published. Supporting documentation for any claims, comparisons, recommendations, statistics or other technical data will be supplied upon request. Past performance is not necessarily indicative of future results. Transaction costs may be significant in option strategies calling for multiple purchases and sales of options, such as spreads and straddles. Because of the importance of tax considerations to many options transactions, the investor considering options should consult with his/her tax advisor as to how taxes affect the outcome of contemplated options transactions.

Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

UBS notes that no globally accepted framework or definition (legal, regulatory or otherwise) currently exists, nor is there a market consensus as to what constitutes an "ESG" (Environmental, Social or Governance) or an equivalent-label, or as to what precise attributes are required for the Information (as defined below) to be defined as ESG or equivalently-labelled. Any information, data or other content including from a third party source contained, referred to herein or used for whatsoever purpose by UBS or a third party ("Information"), in relation to any actual or potential ESG objective, issue or consideration is not intended to be relied upon for ESG classification, regulatory regime or industry initiative purposes ("ESG Regimes"). Nothing in these materials is intended to convey, suggest or indicate that UBS considers or represents any product, service, person or body mentioned in these materials as meeting or qualifying for any ESG classification, labelling or similar standards that may exist under the ESG Regimes. UBS has not conducted any assessment of compliance with ESG Regimes. Parties are reminded to make their own assessments for these purposes.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the Information.

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a

complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes:

- (i) valuation or accounting purposes;
- (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or
- (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS and among its subsidiaries, branches and affiliates. UBS does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For further information on the ways in which UBS Global Research manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS Global Research recommendations, please visit <https://www.ubs.com/disclosures>.

UBS Global Research will initiate, update and cease coverage solely at the discretion of UBS Global Research Management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. All material information in relation to published research reports, such as valuation methodology, risk statements, underlying assumptions (including sensitivity analysis of those assumptions), ratings history etc. as required by the Market Abuse Regulation, can be found on UBS Neo. Different assumptions could result in materially different results.

UBS Global Research may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by UBS Global Research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms under English law or, if not carried out by UBS in the UK the law of the relevant jurisdiction in which UBS determines it carries out the activity) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Within the past 12 months UBS may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Please note that all transactions conducted by UBS are consistent with sanctions regulations imposed by Switzerland, the European Union, the United Nations, the United Kingdom and the United States, per UBS' global sanctions policy. UBS opinion as to future investment worthiness assumes no new sanctions are imposed.

US persons are prohibited from purchasing or selling securities of certain companies designated as being associated with the Chinese Military in accordance with the amended US Presidential Executive Order 13959.

United Kingdom: This material is distributed by UBS AG, London Branch to persons who are eligible counterparties or professional clients. UBS AG, London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. **Europe:** Except as otherwise specified herein, these materials are distributed by UBS Europe SE, a subsidiary of UBS AG, to persons who are eligible counterparties or professional clients (as detailed in the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) Rules and according to MiFID) and are only available to such persons. The information does not apply to, and should not be relied upon by, retail clients. UBS Europe SE is authorised by the European Central Bank (ECB) and regulated by the BaFin and the ECB. **Germany, Luxembourg, the Netherlands, Belgium and Ireland:** Where an analyst of UBS Europe SE has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE. In all cases it is distributed by UBS Europe SE and UBS AG, London Branch. **Turkey:** Distributed by UBS AG, London Branch. No information in this document is provided for the purpose of offering, marketing and sale by any means of any capital market instruments and services in the Republic of Turkey. Therefore, this document may not be considered as an offer made or to be made to residents of the Republic of Turkey. UBS AG, London Branch is not licensed by the Turkish Capital Market Board under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instruments/services may be utilized in connection with providing any capital market services to persons within the Republic of Turkey without the prior approval of the Capital Market Board. However, according to article 15 (d) (ii) of the Decree No. 32, there is no restriction on the purchase or sale of the securities abroad by residents of the Republic of Turkey. **Poland:** Distributed by UBS Europe SE (spółka z ograniczoną odpowiedzialnością) Oddział w Polsce. Where an analyst of UBS Europe SE (spółka z ograniczoną odpowiedzialnością) Oddział w Polsce has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE (spółka z ograniczoną odpowiedzialnością) Oddział w Polsce. **Russia:** Prepared and distributed by UBS Bank (OOO). Should not be construed as an individual investment Recommendation for the purpose of the Russian Law - Federal Law #39-FZ ON THE SECURITIES MARKET Articles 6.1-6.2. **Switzerland:** Distributed by UBS AG to persons who are institutional investors only. UBS AG is regulated by the Swiss Financial Market Supervisory Authority (FINMA). **Italy:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Italy Branch. Where an analyst of UBS Europe SE, Italy Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Italy Branch. **France:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, France Branch. Where an analyst of UBS Europe SE, France Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, France Branch. **Spain:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Spain Branch. Where an analyst of UBS Europe SE, Spain Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Spain Branch. **Sweden:** Prepared by UBS Europe SE and distributed by UBS Europe SE and UBS Europe SE, Sweden Branch. Where an analyst of UBS Europe SE, Sweden Branch has contributed to this document, the document is also deemed to have been prepared by UBS Europe SE, Sweden Branch. **South Africa:** Distributed by UBS South Africa (Pty) Limited (Registration No. 1995/011140/07), an authorised user of the JSE and an authorised Financial Services Provider (FSP 7328). **Saudi Arabia:** This document has been issued by UBS AG (and/or any of its subsidiaries, branches or affiliates), a public company limited by shares, incorporated in Switzerland with its registered offices at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH-8001 Zurich. This publication has been approved by UBS Saudi Arabia (a subsidiary of UBS AG), a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia under commercial register number 1010257812 having its registered office at Tatweer Towers, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. **UAE / Dubai:** The information distributed by UBS AG Dubai Branch is only intended for Professional Clients and/or Market Counterparties, as classified under the DFSA rulebook. No other person should act upon this material/communication. The information is not for further distribution within the United Arab Emirates. UBS AG Dubai Branch is regulated by the DFSA in the DIFC. UBS is not licensed to provide banking services in the UAE by the Central Bank of the UAE, nor is it licensed by the UAE Securities and Commodities Authority. **Israel:** This Material is distributed by UBS AG, London Branch. UBS Securities Israel Ltd is a licensed Investment Marketer that is supervised by the Israel Securities Authority (ISA). UBS AG, London Branch and its affiliates incorporated outside Israel are not licensed under the Israeli Advisory Law. UBS may engage among others in issuance of Financial Assets or in distribution of Financial Assets of other issuers for fees or other benefits. UBS AG, London Branch and its affiliates may prefer various Financial Assets to which they have or may have an Affiliation (as such term is defined under the Israeli Advisory Law). Nothing in this Material should be considered as investment advice under the Israeli Advisory Law. This Material is being issued only to and/or is directed only at persons who are Eligible Clients within the meaning of the Israeli Advisory Law, and this Material must not be furnished to, relied on or acted upon by any other persons. **United States:** Distributed to US persons by either UBS Securities LLC or by UBS Financial Services Inc., subsidiaries of UBS AG; or by a group, subsidiary or affiliate of UBS AG that is not registered as a US broker-dealer (a 'non-US affiliate') to major US institutional investors only. UBS Securities LLC or UBS Financial Services Inc. accepts responsibility for the content of a report prepared by another non-US affiliate when distributed to US persons by UBS Securities LLC or UBS Financial Services Inc. All transactions by a US person in the securities mentioned in this report must be effected through UBS Securities LLC or UBS Financial Services Inc., and not through a non-US affiliate. UBS Securities LLC is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule"), and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule. **Canada:** Distributed by UBS Securities Canada Inc., a registered investment dealer in Canada

and a Member-Canadian Investor Protection Fund, or by another affiliate of UBS AG that is registered to conduct business in Canada or is otherwise exempt from registration. **Brazil:** Except as otherwise specified herein, this Material is prepared by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. (UBS BB CCTVM) to persons who are eligible investors residing in Brazil, which are considered to be Professional Investors (Investidores Profissionais), as designated by the applicable regulation, mainly the CVM Resolution No. 30 from the 11th of May 2021 (determines the duty to verify the suitability of products, services and transactions with regards to the client's profile). UBS BB CCTVM is a subsidiary of UBS BB Serviços de Assessoria Financeira e Participações S.A. ("UBS BB"). UBS BB is an association between UBS AG and Banco do Brasil (through its subsidiary BB – Banco de Investimentos S.A.), of which UBS AG is the majority owner and which provides investment banking services and coverage in Brazil, Argentina, Chile, Paraguay, Peru and Uruguay. UBS BB CCTVM is regulated by the Comissão de Valores Mobiliários (CVM) and by the Central Bank of Brazil. Ombudsman: 0800-940-0266/ <https://www.ubs.com/br/pt/ubsbb-investment-bank/ombudsman.html>. UBS may hold relevant financial and commercial interest in relation to the company subject to this Research report. **Hong Kong:** Distributed by UBS Securities Asia Limited. Please contact local licensed persons of UBS Securities Asia Limited in respect of any matters arising from, or in connection with, the analysis or document. **Singapore:** Distributed by UBS Securities Pte. Ltd. [Co. Reg. No.: 198500648C] or UBS AG, Singapore Branch. Please contact UBS Securities Pte. Ltd., an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110); or UBS AG, Singapore Branch, an exempt financial adviser under the Singapore Financial Advisers Act (Cap. 110) and a wholesale bank licensed under the Singapore Banking Act (Cap. 19) regulated by the Monetary Authority of Singapore, in respect of any matters arising from, or in connection with, the analysis or document. The recipients of this document represent and warrant that they are accredited and institutional investors as defined in the Securities and Futures Act (Cap. 289). **Japan:** Distributed by UBS Securities Japan Co., Ltd. to professional investors (except as otherwise permitted). Global Wealth Management Disclaimer

You receive this document in your capacity as a client of UBS Global Wealth Management. This publication has been distributed to you by UBS Switzerland AG (regulated by FINMA in Switzerland) or its affiliates ("**UBS**") with whom you have a banking relationship with. The full name of the distributing affiliate and its competent authority can be found in the country-specific disclaimer at the end of this document. UBS may utilise artificial intelligence tools ("AI Tools") in the preparation of this document. Notwithstanding any such use of AI Tools, this document has undergone human review.

The date and time of the first dissemination of this publication is the same as the date and time of its publication.

Risk information:

You agree that you shall not copy, revise, amend, create a derivative work, provide to any third party, or in any way commercially exploit any UBS research, and that you shall not extract data from any research or estimates, without the prior written consent of UBS.

This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject UBS to any registration or licensing requirement within such jurisdiction.

This document is **for your information only**; it is not an advertisement nor is it a solicitation or an offer to buy or sell any financial instruments or to participate in any particular trading strategy. Nothing in this document constitutes a representation that any investment strategy or recommendation is suitable or appropriate to an investor's individual circumstances or otherwise constitutes a personal recommendation. By providing this document, none of UBS or its representatives has any responsibility or authority to provide or have provided investment advice in a fiduciary capacity or otherwise. Investments involve risks, and investors should exercise prudence and their own judgment in making their investment decisions. None of UBS or its representatives is suggesting that the recipient or any other person take a specific course of action or any action at all. By receiving this document, the recipient acknowledges and agrees with the intended purpose described above and further disclaims any expectation or belief that the information constitutes investment advice to the recipient or otherwise purports to meet the investment objectives of the recipient. The financial instruments described in the document may not be eligible for sale in all jurisdictions or to certain categories of investors.

Options, derivative products and futures are not suitable for all investors, and trading in these instruments is considered risky. Mortgage and asset-backed securities may involve a high degree of risk and may be highly volatile in response to fluctuations in interest rates or other market conditions. Foreign currency rates of exchange may

adversely affect the value, price or income of any security or related instrument referred to in the document. For investment advice, trade execution or other enquiries, clients should contact their local sales representative.

The value of any investment or income may go down as well as up, and investors may not get back the full (or any) amount invested. Past performance is not necessarily a guide to future performance. Neither UBS nor any of its directors, employees or agents accepts any liability for any loss (including investment loss) or damage arising out of the use of all or any of the information (as defined below).

Prior to making any investment or financial decisions, any recipient of this document or the information should take steps to understand the risk and return of the investment and seek individualized advice from his or her personal financial, legal, tax and other professional advisors that takes into account all the particular facts and circumstances of his or her investment objectives.

Any prices stated in this document are for information purposes only and do not represent valuations for individual securities or other financial instruments. There is no representation that any transaction can or could have been effected at those prices, and any prices do not necessarily reflect UBS's internal books and records or theoretical model-based valuations and may be based on certain assumptions. Different assumptions by UBS or any other source may yield substantially different results.

No representation or warranty, either expressed or implied, is provided in relation to the accuracy, completeness or reliability of the information contained in any materials to which this document relates (the "Information"), except with respect to Information concerning UBS. The Information is not intended to be a complete statement or summary of the securities, markets or developments referred to in the document. UBS does not undertake to update or keep current the Information. Any opinions expressed in this document may change without notice and may differ or be contrary to opinions expressed by other business areas or groups, personnel or other representative of UBS. Any statements contained in this report attributed to a third party represent UBS's interpretation of the data, information and/or opinions provided by that third party either publicly or through a subscription service, and such use and interpretation have not been reviewed by the third party. In no circumstances may this document or any of the Information (including any forecast, value, index or other calculated amount ("Values")) be used for any of the following purposes: (i) valuation or accounting purposes; (ii) to determine the amounts due or payable, the price or the value of any financial instrument or financial contract; or (iii) to measure the performance of any financial instrument including, without limitation, for the purpose of tracking the return or performance of any Value or of defining the asset allocation of portfolio or of computing performance fees.

By receiving this document and the Information you will be deemed to represent and warrant to UBS that you will not use this document or any of the Information for any of the above purposes or otherwise rely upon this document or any of the Information.

UBS has policies and procedures, which include, without limitation, independence policies and permanent information barriers, that are intended, and upon which UBS relies, to manage potential conflicts of interest and control the flow of information within divisions of UBS (including between Global Wealth Management and UBS Global Research) and among its subsidiaries, branches and affiliates. For further information on the ways in which UBS manages conflicts and maintains independence of its research products, historical performance information and certain additional disclosures concerning UBS research recommendations, please visit <https://www.ubs.com/research-methodology>.

Research will initiate, update and cease coverage solely at the discretion of research management, which will also have sole discretion on the timing and frequency of any published research product. The analysis contained in this document is based on numerous assumptions. Different assumptions could result in materially different results.

The analyst(s) responsible for the preparation of this document may interact with trading desk personnel, sales personnel and other parties for the purpose of gathering, applying and interpreting market information. UBS relies on information barriers to control the flow of information contained in one or more areas within UBS into other areas, units, groups or affiliates of UBS. The compensation of the analyst who prepared this document is determined exclusively by research management and senior management (not including investment banking). Analyst compensation is not based on investment banking revenues; however, compensation may relate to the revenues of UBS and/or its divisions as a whole, of which investment banking, sales and trading are a part, and UBS's subsidiaries, branches and affiliates as a whole.

For financial instruments admitted to trading on an EU regulated market: UBS AG, its affiliates or subsidiaries (excluding UBS Securities LLC) acts as a market maker or liquidity provider (in accordance with the interpretation of these terms in the UK) in the financial instruments of the issuer save that where the activity of liquidity provider is carried out in accordance with the definition given to it by the laws and regulations of any other EU jurisdictions, such information is separately disclosed in this document. For financial instruments admitted to trading on a non-EU regulated market: UBS may act as a market maker save that where this activity is carried out in the US in accordance with the definition given to it by the relevant laws and regulations, such activity will be specifically disclosed in this document. UBS may have issued a warrant the value of which is based on one or more of the financial instruments referred to in the document. UBS and its affiliates and employees may have long or short positions, trade as principal and buy and sell in instruments or derivatives identified herein; such transactions or positions may be inconsistent with the opinions expressed in this document.

Options and futures are not suitable for all investors, and trading in these instruments is considered risky and may be appropriate only for sophisticated investors. Prior to buying or selling an option, and for the complete risks relating to options, you must receive a copy of "Characteristics and Risks of Standardized Options". You may read the document at <https://www.theocc.com/about/publications/character-risks.jsp> or ask your financial advisor for a copy.

Investing in structured investments involves significant risks. For a detailed discussion of the risks involved in investing in any particular structured investment, you must read the relevant offering materials for that investment. Structured investments are unsecured obligations of a particular issuer with returns linked to the performance of an underlying asset. Depending on the terms of the investment, investors could lose all or a substantial portion of their investment based on the performance of the underlying asset. Investors could also lose their entire investment if the issuer becomes insolvent. UBS does not guarantee in any way the obligations or the financial condition of any issuer or the accuracy of any financial information provided by any issuer. Structured investments are not traditional investments and investing in a structured investment is not equivalent to investing directly in the underlying asset. Structured investments may have limited or no liquidity, and investors should be prepared to hold their investment to maturity. The return of structured investments may be limited by a maximum gain, participation rate or other feature. Structured investments may include call features and, if a structured investment is called early, investors would not earn any further return and may not be able to reinvest in similar investments with similar terms. Structured investments include costs and fees which are generally embedded in the price of the investment. The tax treatment of a structured investment may be complex and may differ from a direct investment in the underlying asset. UBS and its employees do not provide tax advice. Investors should consult their own tax advisor about their own tax situation before investing in any securities.

Important Information About Sustainable Investing Strategies: Sustainable investing strategies aim to consider and incorporate environmental, social and governance (ESG) factors into investment process and portfolio construction. Strategies across geographies approach ESG analysis and incorporate the findings in a variety of ways. Incorporating ESG factors or sustainable investing considerations may inhibit the portfolio manager's ability to participate in certain investment opportunities that otherwise would be consistent with its investment objective and other principal investment strategies. The returns on a portfolio incorporating ESG factors or sustainable investing considerations may be lower or higher than portfolios where ESG factors, exclusions, or other sustainability issues are not considered by the portfolio manager, and the investment opportunities available to such portfolios may differ.

Within the past 12 months UBS Switzerland AG, its affiliates or subsidiaries may have received or provided investment services and activities or ancillary services as per MiFID II which may have given rise to a payment or promise of a payment in relation to these services from or to this company.

Disclosures: If you require detailed information on disclosures of interest or conflict of interest as required by Market Abuse Regulation please contact the mailbox MAR_disclosure_twopager@ubs.com. Please note that e-mail communication is unsecured.

External Asset Managers / External Financial Consultants: In case this research or publication is provided to an External Asset Manager or an External Financial Consultant, UBS expressly prohibits that it is redistributed by the External Asset Manager or the External Financial Consultant and is made available to their clients and/or third parties.

Argentina: All securities that will be offered to you by UBS are not authorized by the Argentine Securities and Exchange Commission (CNV) and are not subject to its reporting, periodic information requirements, or oversight. Furthermore, the CNV has not reviewed or endorsed the information provided in any securities offering document, nor the accuracy of any accounting, financial, economic data, or any other information disclosed therein, which remains the sole responsibility of the respective issuer and the other parties involved. **Australia:** This document is provided by UBS Switzerland AG. UBS Switzerland AG does not hold an Australian Financial Services Licence (AFSL) and relies on an exemption to provide financial services to persons in Australia. This document is intended only for distribution to wholesale clients under the Corporations Act 2001 (Cth). UBS Switzerland AG is a related body corporate of UBS AG, Australia Branch and UBS Securities Australia Limited. This document may be distributed to clients by those entities, but it is provided by UBS Switzerland AG and is not provided under any of the other entities' AFSL. The information in this document is general in nature and is not intended to address the objectives, financial situation or needs of any particular individual or entity. Each recipient should consider their own objectives, financial situation or needs before acting on the advice and obtain the relevant Product Disclosure Statement (if required) before making any decision whether to acquire any product. In Australia, UBS entities, other than UBS AG, Australia Branch, are not authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Cth.) and their obligations do not represent deposits or other liabilities of UBS AG, Australia Branch. UBS AG, Australia Branch does not guarantee or otherwise provide assurance in respect of the obligations of such UBS entities or the funds. An investor is exposed to investment risk including possible delays in repayment and loss of income and principal invested, as relevant. If you do not wish to receive marketing materials from UBS, please contact your UBS representative or the contact details listed in the Australia Privacy Notice: <https://www.ubs.com/global/en/legal/privacy.html>. Your personal data will be processed in accordance with this notice. **Bahrain:** This report is being distributed by UBS AG, Bahrain Branch, duly licensed and regulated by the Central Bank of Bahrain (CBB) as an Investment Business Firm - Category 2 (Branch). Related financial services or products are only made available to Accredited Investors, as defined by the CBB, and are not intended for any other persons. UBS AG, Bahrain Branch is

a Foreign Branch of UBS AG, Zurich/Switzerland and is located on Level 21, East Tower, Bahrain World Trade Centre, Manama, Kingdom of Bahrain. **Brazil:** This report is distributed in Brazil by UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A. or its affiliates ("UBS"). Pursuant to CVM Resolution No. 20/2021, of February 25, 2021, the author(s) of the report hereby certify(ies) that the views expressed in this report solely and exclusively reflect their personal opinions and have been prepared independently, including with respect to UBS. Part of the author(s)'s compensation is based on various factors, including the total revenues of the relevant UBS Group entity of which they are in employment of, but no part of the compensation has been, is, or will be related to the specific recommendations or views expressed in this report. In addition, UBS declares that: UBS has provided, and/or may in the future provide investment banking, brokerage, asset management, commercial banking and other financial services to the subject company/companies or its affiliates, for which they have received or may receive customary fees and commissions, and which constituted or may constitute relevant financial or commercial interests in relation to the subject company/companies or the subject securities. **Canada:** The information contained herein is not, and under no circumstances is to be construed as, a prospectus, an advertisement, a public offering, an offer to sell securities described herein, solicitation of an offer to buy securities described herein, in Canada or any province or territory thereof. Any offer or sale of the securities described herein in Canada will be made only under an exemption from the requirements to file a prospectus with the relevant Canadian securities regulators and only by a dealer properly registered under applicable securities laws or, alternatively, pursuant to an exemption from the dealer registration requirement in the relevant province or territory of Canada in which such offer or sale is made. Under no circumstances is the information contained herein to be construed as investment advice in any province or territory of Canada and is not tailored to the needs of the recipient. To the extent that the information contained herein references securities of an issuer incorporated, formed or created under the laws of Canada or a province or territory of Canada, any trades in such securities must be conducted through a dealer registered in Canada or, alternatively, pursuant to a dealer registration exemption. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon these materials, the information contained herein or the merits of the securities described herein and any representation to the contrary is an offence. In Canada, this publication is distributed by UBS Investment Management Canada Inc. **China:** This report and any offering material such as term sheet, research report, other product or service documentation or any other information (the "Material") sent with this report was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the material erroneously, UBS asks that you kindly delete it and inform UBS immediately. This report is prepared by UBS Switzerland AG or its offshore subsidiary or affiliate (collectively as "UBS Offshore"). UBS Offshore is an entity incorporated out of China and is not licensed, supervised or regulated in China to carry out banking or securities business. The recipient should not contact the analysts or UBS Offshore which produced this report for advice as they are not licensed to provide securities investment advice in China. UBS Investment Bank (including Research) has its own wholly independent research and views which at times may vary from the views of UBS Global Wealth Management. The recipient should not use this document or otherwise rely on any of the information contained in this report in making investment decisions and UBS takes no responsibility in this regard. **Denmark:** This publication is not intended to constitute a public offer under Danish law. It is distributed only for information purposes to clients of UBS Europe SE, Denmark Branch, filial af UBS Europe SE, with place of business at Sankt Annæ Plads 13, 1250 Copenhagen, Denmark, registered with the Danish Commerce and Companies Agency, under No. 38 17 24 33. UBS Europe SE, Denmark Branch, filial af UBS Europe SE is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Danish Financial Supervisory Authority (Finanstilsynet), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Egypt:** Securities or other investment products are not being offered or sold by UBS to the public in Egypt and they have not been and will not be registered with the Egyptian Financial Regulatory Authority (FRA). **France:** This publication is not intended to constitute a public offer under French law, it does not constitute a personal recommendation as it is distributed only for information purposes to clients of UBS Europe SE Succursale de France (a branch of UBS Europe SE), having its registered office at 39, rue du Colisée, 75008 Paris, France, registered with the "Registre du Commerce et des Sociétés" of Paris under N°844 425 629. UBS Europe SE Succursale de France is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the French "Autorité de contrôle prudentiel et de résolution" and "Autorité des marchés financiers", to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Germany:** This publication is not intended to constitute a public offer under German law. It is distributed only for information purposes to clients of UBS Europe SE, Germany, with place of business at Bockenheimer Landstrasse 2-4, 60306 Frankfurt am Main. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and supervised jointly by the European Central Bank, the German Central Bank (Deutsche Bundesbank) and BaFin, to which this publication has not been submitted for approval. **Hong Kong SAR:** This publication is distributed to clients of UBS AG Hong Kong Branch by UBS AG Hong Kong Branch, a licensed bank under the Hong Kong Banking Ordinance and a registered institution under the Securities and Futures Ordinance. Within the past 12 months, UBS AG, its affiliates or subsidiaries may have received compensation for non-investment banking securities-related services and/or non-securities services from the subject Indian company/companies. The subject company/companies may have been a client/client of UBS AG, its affiliates or subsidiaries during the 12 months preceding the date of distribution of the research report with respect to investment banking and/or non-investment banking securities-related services and/or non-securities services. With regard to information on associates, please refer to the Annual Report at: https://www.ubs.com/global/en/about_ubs/investor_relations/annualreporting.html. The Research Annual Compliance report for UBS Securities India Private Limited is available on www.ubs.com/ubssi under Research tab. **Indonesia:** This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed without the consent of UBS. None of the Material has been registered or filed under the prevailing laws and with any financial or regulatory authority in your jurisdiction. The Material may not have been approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including futures contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Israel:** UBS is a premier global financial firm offering wealth management, asset management and investment banking services from its headquarters in Switzerland and its operations in over 50 countries worldwide to individual, corporate and institutional investors. This publication is intended for information only and is not intended as an offer to buy or solicitation of an offer. Furthermore, this publication is not intended as an investment advice. Nothing contrary to the above, no action has been, or will be, taken in Israel that would permit an offering of the product(s) mentioned in this document or a distribution of this document to the public in Israel. In particular, this document has not been reviewed or approved by the Israeli Securities Authority. The product(s) mentioned in this document is/are being offered to a limited number of sophisticated investors who qualify as one of the investors listed in the first supplement to the Israeli Securities Law, 5728-1968. This document may not be reproduced or used for any other purpose, nor be furnished to any other person other than those to whom copies have been sent. Anyone who purchases the product(s) mentioned herein shall do so for its own benefit and for its own account and not with the aim or intention of distributing or offering the product(s) to other parties. Anyone who purchases the product(s) shall do so in accordance with its own understanding and discretion and after it has received any relevant financial, legal, business, tax or other advice or opinion required by it in connection with such purchase(s). The word "advice" and/or any of its equivalent terms shall be read and construed in conjunction with the definition of the term "investment marketing" as defined under the Israeli Regulation of Investment Advice, Investment Marketing and Portfolio Management Law. The Swiss laws and regulations require a number of mandatory disclosures to be made in independent financial research reports or recommendations. Pursuant to the Swiss Financial Market Infrastructure Act and the Financial Market Infrastructure Ordinance-FINMA, banks must disclose the percentage of voting rights they hold in companies being researched, if these holdings are equal to or exceed the statutory thresholds. In addition, the Directives on the Independence of Financial Research, issued by the Swiss Bankers Association, mandate a number of disclosures, including the disclosure of potential conflicts of interest, the participation within previous 12 months in any securities issues on behalf of the company being researched, as well as the fact that remuneration paid to the financial analysts is based generally upon the performance of (i) the new issues department or investment banking; or (ii) securities trading performance (including proprietary trading) or sales. **Italy:** This publication is not intended to constitute a public offer under Italian law. It is distributed only for information purposes to clients of UBS Europe SE, Succursale Italia, with place of business at Via del Vecchio Politecnico, 3-20121 Milano. UBS Europe SE, Succursale Italia is subject to the joint supervision of the European Central Bank, the German Central Bank (Deutsche Bundesbank), the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin"), as well as of the Bank of Italy (Banca d'Italia) and the Italian Financial Markets Supervisory Authority (CONSOB - Commissione Nazionale per le Società e la Borsa), to which this publication has not been submitted for approval. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea, duly authorized by BaFin. **Japan:** This report is solely distributed in Japan by UBS SuMi TRUST Wealth Management Co., Ltd, Financial Instruments Dealer, Director-General of Kanto Local Finance Bureau (Kinsho) No. 3233, a member of the Japan Securities Dealers Association, Financial Futures Association of Japan, Investment Management Association of Japan. UBS SuMi TRUST Wealth Management Co., Ltd will not distribute or

forward this report outside Japan. **Jersey:** UBS AG, Jersey Branch, is regulated and authorized by the Jersey Financial Services Commission for the conduct of banking, funds and investment business. Where services are provided from outside Jersey, they will not be covered by the Jersey regulatory regime. UBS AG, Jersey Branch is a branch of UBS AG a public company limited by shares, incorporated in Switzerland whose registered offices are at Aeschenvorstadt 1, CH-4051 Basel and Bahnhofstrasse 45, CH 8001 Zurich. UBS AG, Jersey Branch's principal place of business is 1, IFC Jersey, St Helier, Jersey, JE2 3BX. **Luxembourg:** This publication is not intended to constitute a public offer under Luxembourg law. It is distributed only for information purposes to clients of UBS Europe SE, Luxembourg Branch ("UBS Luxembourg"), R.C.S. Luxembourg n° B209123, with registered office at 33A, Avenue J. F. Kennedy, L-1855 Luxembourg. UBS Europe SE is a credit institution constituted under German law in the form of a Societas Europaea (HRB n° 107046), with registered office at Bockenheimer Landstrasse 2-4, D-60306 Frankfurt am Main, Germany, duly authorized by the German Federal Financial Services Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, "BaFin") and subject to the joint prudential supervision of BaFin, the European Central Bank and the central bank of Germany (Deutsche Bundesbank). UBS Luxembourg is furthermore supervised by the Luxembourg prudential supervisory authority (Commission de Surveillance du Secteur Financier), in its role as host member state authority. This publication has not been submitted for approval to any public supervisory authority. **Malaysia:** This communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Mexico:** This information is distributed by UBS Asesores México, S.A. de C.V. ("UBS Asesores"), an affiliate of UBS Switzerland AG, incorporated as a non-independent investment advisor under the Mexican regulation due to the relation with a Foreign Bank. UBS Asesores is registered under number 30060-001-(14115)-21/06/2016 and subject to the supervision of the Mexican Banking and Securities Commission ("CNBV") exclusively regarding the rendering of (i) portfolio management services, (ii) securities investment advisory services, analysis and issuance of individual investment recommendations, and (iii) anti-money laundering and terrorism financing matters. This UBS publication or any material related thereto is addressed only to Sophisticated or Institutional Investors located in Mexico. Research reports only reflect the views of the analysts responsible for the report. The compensation of the analyst(s) who prepared this report is determined exclusively by research management and senior management of any entity of UBS Group to which such analyst(s) render(s) services. **Monaco:** This document is not intended to constitute a public offering or a comparable solicitation under the Principality of Monaco laws, but might be made available for information purposes to clients of UBS (Monaco) S.A., a regulated bank having its registered office at 2 avenue de Grande Bretagne 98000 Monaco operating under a banking license granted by the "Autorité de Contrôle Prudentiel et de Résolution" (ACPR) and the Monegasque government which authorizes the provision of banking services in Monaco. UBS (Monaco) S.A. is also licensed by the "Commission de Contrôle des Activités Financières" (CCAF) to provide investment services in Monaco. The latter has not approved this publication. **Philippines:** This communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Portugal:** UBS Switzerland AG is not licensed to conduct banking and financial activities in Portugal nor is UBS Switzerland AG supervised by the Portuguese regulators (Bank of Portugal "Banco de Portugal" and Portuguese Securities Exchange Commission "Comissão do Mercado de Valores Mobiliários"). **Qatar:** UBS Qatar LLC is licensed by the Qatar Financial Centre Authority and authorized by the QFC Regulatory Authority, with QFC no. 01169, and has its registered office at Building No. 36, 4th Floor, Abdulla Bin Thani Street, Doha Design District 1, Msheireb Downtown Doha, State of Qatar. This material is strictly intended for Eligible Counterparties and/or Business Customers only as classified under the QFCRA's Customer and Investor Protection Rules 2019. No other person should act upon this material. **Russia:** This document or information contained therein is for information purposes only and constitutes neither a public nor a private offering, is not an invitation to make offers, to sell, exchange or otherwise transfer any financial instruments in the Russian Federation to or for the benefit of any Russian person or entity and does not constitute an advertisement or offering of securities in the Russian Federation within the meaning of Russian securities laws. The information contained herein is not an "individual investment recommendation" as defined in Federal Law of 22 April 1996 No 39-FZ "On Securities Market" (as amended) and the financial instruments and operations specified herein may not be suitable for your investment profile or your investment goals or expectations. The determination of whether or not such financial instruments and operations are in your interests or are suitable for your investment goals, investment horizon or the acceptable risk level is your responsibility. We assume no liability for any losses connected with making any such operations or investing into any such financial instruments and we do not recommend to use such information as the only source of information for making an investment decision. **Saudi Arabia:** This material is for marketing and information purposes by UBS Saudi Arabia only. It has been distributed by UBS Saudi Arabia or reviewed and approved by UBS Saudi Arabia if it was issued by UBS Switzerland AG, by UBS AG, or any of its subsidiaries or branches. UBS Switzerland AG is a public company limited by shares, incorporated in Switzerland with its registered offices at Bahnhofstrasse 45, CH-8001 Zurich. UBS Saudi Arabia (a subsidiary of UBS AG) is a Saudi closed joint stock company incorporated in the Kingdom of Saudi Arabia with a paid capital of 110,000,000 Saudi Riyals under commercial register number 1010257812 having its registered office at Laysen Valley, P.O. Box 75724, Riyadh 11588, Kingdom of Saudi Arabia. UBS Saudi Arabia is authorized and regulated by the Capital Market Authority to conduct securities business under license number 08113-37. This document is distributed only under such circumstances as may be permitted by applicable laws and regulations. The information and – if any – opinions contained in this document have been compiled or arrived at based upon information obtained from sources believed to be reliable and in good faith, but is not guaranteed as being accurate, nor is it a complete statement or summary of the securities, markets or developments referred to in the document. All such information and opinions are subject to changes without notice. Past performance of investments (whether simulated or actual) is not necessarily an indicator of future results. Forward looking data is based on estimates that are subject to changes. Should the currency of a financial product or service not match your reference currency, performance may rise or fall due to currency fluctuations. UBS Switzerland AG and / or other members of the UBS Group may have a position in and may make a purchase and/or sale of any of the securities or other financial instruments mentioned in this document While statements that constitute "forward-looking statements", including, but not limited to, statements relating to our future business development represent UBS judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. This document may not be forwarded, reproduced, redistributed or republished for any purpose without the written permission of UBS Saudi Arabia. Source for all data and charts (if not indicated otherwise) is UBS Switzerland AG. **Singapore:** Where applicable, this material is distributed in Singapore by UBS AG, Singapore Branch, which is licensed by the Monetary Authority of Singapore under the Banking Act 1970 to carry on banking business. UBS AG is incorporated in Switzerland with limited liability. UBS AG has a branch registered in Singapore (UEN S98FC5560C). This material has been prepared and issued for distribution in Singapore to institutional investors, accredited investors and expert investors (each as defined under the Financial Advisers Regulations (the "FAR")) only. By virtue of your status as an institutional investor, accredited investor, or expert investor, UBS AG is exempted from complying with certain requirements under the Financial Advisers Act 2001 (the "FAA"), the FAR and the relevant Notices and Guidelines issued thereunder, in respect of any financial advisory service which UBS AG may provide to you. These include exemptions from complying with: Section 34 of the FAA (pursuant to Regulation 33(1) of the FAR); Section 36 of the FAA (pursuant to Regulation 34(1) of the FAR); and Section 45 of the FAA (pursuant to Regulation 35(1) of the FAR). Singapore recipients and clients of UBS AG, Singapore Branch should contact UBS AG, Singapore Branch for any matters arising from, or in connection with, this material. Where applicable, this communication and any offering material term sheet, research report, other product or service documentation or any other information (the "Material") sent with this communication was done so as a result of a request received by UBS from you and/or persons entitled to make the request on your behalf. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved or endorsed by any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or products or futures contracts). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided on and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Spain:** This report is distributed in Spain by UBS AG, Sucursal en España, authorized under number 1460 in the Register by the Banco de España. **Sweden:** This publication is not intended to constitute a public offer under Swedish law. Should you have received the Material erroneously, UBS asks that you kindly delete/destroy the communication and Material and inform UBS immediately. The Material, where provided, was provided for your information only and is not to be further distributed in whole or in part in or into your jurisdiction without the consent of UBS. The Material may not have been reviewed, approved, disapproved, endorsed, registered or filed with any financial or regulatory authority in your jurisdiction. UBS has not, by virtue of the Material, made available, issued any invitation to subscribe for or to purchase any investment (including securities or derivatives products). The Material is neither an offer nor a solicitation to enter into any transaction or contract (including future contracts) nor is it an offer to buy or to sell any securities or derivatives products. The relevant investments will be subject to restrictions and obligations on transfer as set forth in the Material, and by receiving the Material you undertake to comply fully with such restrictions and obligations. You should carefully study and ensure that you understand and exercise due care and discretion in considering your investment objective, risk appetite and personal circumstances against the risk of the investment. You are advised to seek independent professional advice in case of doubt. Any and all advice provided and/or trades executed by UBS pursuant to the Material will only have been provided upon your specific request or executed upon your specific instructions, as the case may be, and may be deemed as such by UBS and you. **Türkiye:** The information in this document is not provided for the purpose of offering, marketing or sale of any capital market instrument or service in the Republic of Türkiye. Therefore, this document may not be considered as an offer made, or to be made, to residents of the Republic of Türkiye in the Republic of Türkiye. UBS Switzerland AG is not licensed by the Capital Markets Board of Türkiye (the CMB) under the provisions of the Capital Market Law (Law No. 6362). Accordingly, neither this document nor any other offering material related to the instrument/service may be utilized in connection with providing any capital market services to persons within the Republic of Türkiye without the prior approval of the CMB. However, according to article 15 (d) (ii) of the Decree No. 32 residents of the Republic of Türkiye are allowed to purchase or sell the financial instruments traded in financial markets outside of the Republic of Türkiye. Further to this, pursuant to article 9 of the Communiqué on Principles Regarding Investment Services, Activities and Ancillary Services No. III-37.1, investment services provided abroad to residents of the Republic of Türkiye based on their own initiative are not restricted. **United Arab Emirates (UAE) / DIFC / Abu Dhabi:** UBS is not licensed in the UAE by the Central Bank of the UAE nor by the Emirates' Securities and Commodities Authority and does not undertake banking activities in the UAE. This document is provided for your information only and does not constitute financial advice. **DIFC:** UBS AG Dubai Branch is regulated by the DFSA in the DIFC. This material is strictly intended for Professional Clients and/or Market Counterparties only as classified under the DFSA rulebook. It should not be distributed to Retail Clients. The Investment Research is provided for information purposes only and is not a recommendation or offer to buy/sell/hold a particular investment. The investment research may be out of date. You should seek investment advice before acting on the basis of the Investment Research. **Abu Dhabi:** UBS AG Abu Dhabi Branch is licensed and regulated by the Financial Services Regulatory Authority ("FSRA") of the Abu Dhabi Global Market. This material is intended solely for professional clients or market counterparties, as defined in the rules of the FSRA. It is not directed at, nor intended for, retail clients or any person who does not meet the criteria of a professional client or market counterparty. **United Kingdom:** This document is issued by UBS Wealth Management, a division of UBS AG which is authorised and regulated by the Financial Market Supervisory Authority in Switzerland. In the United Kingdom, UBS AG is authorised by the Prudential Regulation Authority and is subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority. Details about the extent of regulation by the Prudential Regulation Authority are available from us on request. A member of the London Stock Exchange. This publication is distributed to retail clients of UBS Wealth Management. **Ukraine:** UBS is a premier global financial services firm offering wealth management services to individual, corporate and institutional investors. UBS is established in Switzerland and operates under Swiss law and in over 50 countries and from all major financial centers. UBS is not registered and licensed as a bank/financial institution under Ukrainian legislation and does not provide banking and other financial services in Ukraine. UBS has not made, and will not make, any offer of the mentioned products to the public in Ukraine. No action has been taken to authorize an offer of the mentioned products to the public in Ukraine and the distribution of this document shall not constitute financial services for the purposes of the Law of Ukraine "On Financial Services and Financial Companies" dated 14 December 2021. Any offer of the mentioned products shall not constitute an investment advice, public offer, circulation, transfer, safekeeping, holding or custody of securities in the territory of Ukraine. Accordingly, nothing in this document or any other document, information or communication related to the mentioned products shall be interpreted as containing an offer, a public offer or invitation to offer or to a public offer, or solicitation of securities in the territory of Ukraine or investment advice under Ukrainian law. Electronic communication must not be considered as an offer to enter into an electronic agreement or other electronic instrument within the meaning of the Law of Ukraine "On Electronic Commerce" dated 3 September 2015. This document is strictly for private use by its holder and may not be passed on to third parties or otherwise publicly distributed. **USA:** Distributed to US persons only by UBS Financial Services Inc. or UBS Securities LLC, subsidiaries of UBS AG. UBS Switzerland AG, UBS Europe SE, UBS Bank, S.A., UBS BB Corretora de Câmbio, Títulos e Valores Mobiliários S.A., UBS Asesores México, S.A. de C.V., UBS SuMi TRUST Wealth Management Co., Ltd., UBS Wealth Management Israel Ltd. and UBS Menkul Degerler AS are affiliates of UBS AG. **UBS Financial Services Inc. accepts responsibility for the content of a report prepared by a non-US affiliate when it distributes reports to US persons. All transactions by a US person in the securities mentioned in this report should be effected through a US-registered broker dealer affiliated with UBS, and not through a non-US affiliate. The contents of this report have not been and will not be approved by any securities or investment authority in the United States or elsewhere. UBS Financial Services Inc. is not acting as a municipal advisor to any municipal entity or obligated person within the meaning of Section 15B of the Securities Exchange Act (the "Municipal Advisor Rule") and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of the Municipal Advisor Rule.** For information on the ways in which UBS Securities LLC manages conflicts and maintains independence of its UBS Global Research product; historical performance information; certain additional disclosures concerning UBS Global Research recommendations; and terms and conditions for certain third party data used in research report, please visit <https://www.ubs.com/disclosures>.
